

Multi-Factor Authentication

Microsoft Authenticator—Desktop Registration

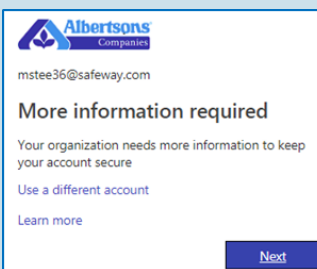

Step 1:
ENTER <https://aka.ms/proofup?whr=safeway.com> into your browser.

Step 2:
SELECT No

Step 3:
CLICK "Next" to begin the Multi-factor Authentication (MFA) registration

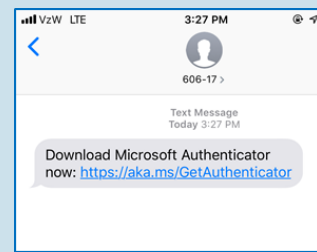

Step 4:
To choose to receive the second factor via the Microsoft Authenticator app, click "Download Now."

Step 5:
ENTER your phone number and have a download link for the Microsoft Authenticator app sent to your mobile phone. Enter your phone number and CLICK "Send Link."

Step 6:
You will receive an SMS text with a download link. CLICK the link to open in either the App Store or Google Play Store.

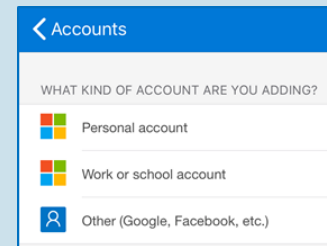

Step 7:
The Microsoft Authenticator app will open in either the App Store or Google Play Store. CLICK to download.

Step 8:
In your desktop browser window, CLICK "Next" under Set up your account.

Step 9:
In the Microsoft Authenticator app, CLICK "Work or School Account" to set up a new account.

Step 10:
In your desktop browser, there will be a QR code visible.

Step 11:
Using the Microsoft Authenticator app on your mobile phone, scan the QR code on your desktop computer screen.

Step 12:
On your desktop browser, you should receive a "Notification approved" message. CLICK "Next."

Step 13:
The Microsoft authentication process will then send you an automatic test notification to your mobile phone.

Step 14:
When you receive the notification on your mobile phone, CLICK "Approve."

Step 15:
On your desktop browser, you should see a "Notification approved" message. CLICK "Next."

Step 16:
You have successfully set up the Microsoft Authenticator app on your phone and are registered for MFA. CLICK "Done."

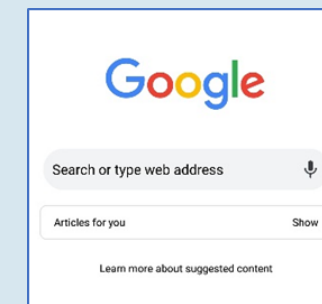

Multi-Factor Authentication

Let's Get Started!
